

## DALTON AGAIN DEAD.

Bill Dalton Shot and Killed Near Ardmore, L. T.

Seems to be No Doubt About It This Time.

## IS WELL IDENTIFIED.

His Wife Telegraphs Relatives That He is Dead.

ARDMORE, Ind. Ter., June 9.—Stretched out on a pine board in the rooms of Undertaker Appolis, on Caddo street, in this city, Bill Dalton, the noted desperado, bank robber and murderer, lies stiff and cold, a victim of the unerring aim of C. Loss Hart, a deputy United States marshal attached to the force of Captain L. L. Stowe of this city. A wound on the right side of the spinal column near the hip shows where the deadly messenger did its work.

The identification is complete. His widow is here under arrest and has sent two telegrams, signing her name "Mrs. Jennie Dalton." The first went to C. H. Bivens, 1407 Van Ness avenue, San Francisco, and read: "My husband, Bill Dalton, lies here dead. Come at once. I want his remains sent home." The other one was addressed to Mrs. A. L. Dalton, Kingfisher, and read: "Bill Dalton here dead. Come at once if you wish to see him."

Thursday afternoon a man named Wallace went to the express office and called for a package, which was given him. He was arrested on suspicion, the package broken into and found to contain several gallons of whisky. From him it was learned that the whisky was for other people, said to be living near Elk, and from incautious remarks the officers concluded it to belong to the Daltons, the Longview bank robbers, who were known to be in the neighborhood of Elk, a small town twenty-five miles northwest of here. The man was locked up and a posse of United States deputy marshals started for the freebooters' rendezvous.

Dalton Taken by Surprise.

Yesterday while the men were taking their positions Dalton was seen to come out, look around and immediately return. The officers on the east side were discovered by him through a window or by some one in the house, and pistol in hand he jumped through a window on the north and started to run east. Loss Hart, one of the posse, was less than thirty yards from the house and called on him to halt. For reply he tried to take aim while running and just then the Winchester of the officer spoke.

The two jumped into the air were the only motions after this by the fleeing man. His pistol fell from his hand and with a groan he sank down. Mr. Hart ran up to him and asked what he was doing there, but he was too near death to reply, and expired without a word. The house was searched, and over 150 letters, besides numerous rolls of crisp bank bills were found, the address proving him to be Bill Dalton and the money proving him to have been the leader of the Longview bank robbery.

The remains were brought to this city, and when his wife was told that Bill Dalton was dead she became hysterical and almost succumbed to the shock. Dalton was a man about five feet nine inches tall, weighed about 170 pounds and had black curly hair; clean shaven, large head, dark eyes and well built. He was dressed in a woolen shirt, yellow suspenders, black pants and top boots, and looked the typical outlaw.

The Outlaw's Wife Talks.

In the Sherman house Mrs. Bill Dalton, nee Jennie Blivins, lies stricken from the blow which killed her husband. In reply to questions Mrs. Dalton said: "I was born and raised in California, where I first met Mr. Dalton. We were married March 14, 1884, in Merced county in that state, where we lived together until that state was left for this country. I followed in 1893, and we have remained here since that time.

"Mr. Dalton was 29 years of age and has a mother aged 60 and four brothers, Charles, Coleman, Littleton and Simon who live at present at Okma Territory. We have lived with the Wallace family only a month and were in no way related to them. My people live in San Francisco, my father's residence being 1407 Van Ness avenue, and I also have two brothers and one sister living in that city."

Mrs. Dalton is a blonde, intelligent, refined and cultured, and keenly feels her present position. She is 27 years of age and has two children, the eldest, Charles, being 8 years old, while a daughter, Grace, aged 6, is a hopeless invalid. Messrs. Dick and Brown, attorneys of this city, have been engaged to defend Wallace who was arrested, and will also represent Mrs. Dalton in the legal complications which may arise. There can no longer be a question of the identity of the dead man, as Mrs. Dalton, replying to a recent question asked, "Yes, that is Bill Dalton, and I and my children are his lawful and sorrowing wife and orphans."

## FAMOUS OUTLAWS.

Something of the Daltons and Their Career of Blood.

Bill Dalton was the third son in a family of ten children. He, with his brothers, Bob and Grat, killed at Coffeyville, October 3, 1892, and Emmett, now in the Kansas penitentiary, made a record of crime not second even to that of the James and Younger brothers. They will probably never again have equals in this country. The march of civilization will prevent the opportunity.

The Daltons were Missourians by birth, but moved to Kansas, settling near Coffeyville, in their youth. They

bore but mediocre reputations as outlaws until in October, 1892. Grat, Bob and Emmett Dalton, Dick Broadwell and Bill Powers attempted to loot the Condon and First National banks of Coffeyville. The raid resulted in the death of four citizens, the serious wounding of three others, the killing of Grat and Bob, Powers and Broadwell and the wounding and capture of Emmett.

Bill Dalton was but little known then. He became famous afterward through train and bank robbing and indiscriminate shooting, and of late was more feared than was ever any of his brothers.

## TRAIN ROBBERS IN TEXAS.

Attempt to Rob a Santa Fe Passenger Train—One Bandit Badly Wounded.

GAINESVILLE, Texas, June 9.—This city is in a fever of excitement over an attempt to hold up and rob the north bound Santa Fe passenger train by four men who boarded the train here.

Three policemen and one deputy marshal who were on the train commanded the men to throw up their hands. The outlaws opened fire and for five minutes an exciting battle waged during which the bandits scattered.

One robber was found to be mortally wounded. He gave his name as Arthur Oring, aged 24 years. The wounded man is in jail but refuses to talk.

## MAKE A DEMAND OF SPAIN.

That Country Owes Us the Sum of \$2,500,000 Pesetas.

MADRID, June 9.—The United States minister, Hannis Taylor, has communicated a note to the Spanish government declaring that the customs duties are improperly collected in the island of Cuba, owing to misinterpretation of the treaty with the United States. As a result the United States claims reimbursement of the sum of \$2,500,000 pesetas on the ground that articles which are free of duty, according to the English text of the agreement, are not included in the Spanish copy of the agreement which was sent to Cuba for the use of the Spanish customs officials in that island. It is said that if Spain should yield in this matter the Cuban revenue, under the estimates, would decline 15,000,000 pesetas.

## GREATLY EXAGGERATED.

There Has Been No Trouble at End With the Rock Island.

SOUTH END, Ok., June 8.—The condition of things created by failure of the Rock Island to establish a depot at this point has been greatly exaggerated. There has never been any bloodshed over the affair, neither has there been any harm done to the railroad's property by any of the citizens of End.

## SIXTEEN DROWNED.

The Total Number Believed to Be Lost in the Coxeite Disaster.

DENVER, June 9.—The number of Coxeites who lost their lives in trying to navigate the Platte river will never be known. Coroner Martin says five bodies have been recovered. Identified are Charles Duplessis of Denver and John P. McQuinn of Utah. The coroner believes after sifting the conflicting stories he has heard, that at least sixteen were drowned.

The Coxeites now at Brighton will elect a new leader in place of Higginson, to whose bad management the recent disaster is largely attributed. Gen. Carter's Utah army is badly disorganized but Carter still declares they will go to Washington if obliged to walk.

## Tariff Debate Will Go On.

WASHINGTON, June 9.—The prospect for an agreement to close the debate on the tariff bill is not very hopeful. Mr. Aldrich has assured the Democratic managers there will be no unnecessary delay, and that the debate will go along to the satisfaction of the majority without an agreement. The Democrats do not feel satisfied, as on their own side there is considerable opposition to night sessions—almost enough to make them hesitate to force such sessions.

## Will Get Fifty Cents on the Dollar.

ST. JOSEPH, Mo., June 9.—It is announced positively that the assets of Steele & Walker will not be nearly sufficient to meet the obligations, and creditors may not be paid more than fifty cents on the dollar, as the liabilities now aggregate nearly \$1,000,000. The shrinkage is in property turned over as assets, some Kansas land being appraised at \$40 an acre, while it would not bring half that sum if it were to be sold at a forced sale.

## Plunged into Clear Creek.

DENVER, Col., June 9.—The Colorado Central train, which left here for Georgetown at 8:35 o'clock yesterday morning, was wrecked one mile west of Chimney gulch by the sinking of a rail at a soft place in the track. The train rolled into Clear Creek, and five persons were injured.

## A LITTLE BETTER.

Dun Reports a Slight Improvement in Business.

The Railroad Tonnage is Somewhat Higher.

## WHEAT HAS RISEN.

The Business Failures Have Fortunately Decreased.

NEW YORK, June 9.—R. G. Dun's Weekly Review of Trade says: "The outlook for business seems a little better on the whole, though the improvement is not great. Moreover, it is hard to distinguish between mere replacement of orders cancelled for want of fuel and other causes and the new business for which work is anxious looking. It is somewhat encouraging that the decrease in payments through clearing houses is but 24.3 per cent for the first week of June, 27.2 at New York, but only 19.4 elsewhere. The decrease in comparison with 1893 is about thirty per cent.

Railroad tonnage is larger than a year ago in live stock and moderate in cereals, but considerably smaller in coal and iron products and in manufactured goods west-bound. "Speculation in products has turned toward higher prices, and wheat has risen five cents with an official state report of injury in Kansas, which is high favored enough even for Farmers' Alliances.

"With only 2,937 coke ovens working and 14,576 idle, with the Canada discharging half its force, and seven out of nine of the Carnegie furnaces at Bessemer out of blast, the production and manufacture of iron and steel is smaller than at any other time for years. While it is believed deferred work will cause heavy production after the strikes terminate, the demand for products is at present much below general expectations even at the East.

"Other industries have been less affected, but many of the textile mills even in New England have now been closed for lack of orders. In Canada, besides other concerns in great numbers between the Atlantic and the Mississippi river.

"The returns of failures are still encouraging, 216 in the United States for the week against 322 last year and forty in Canada against twenty-seven last year."

## Bank Clearings.

NEW YORK, June 9.—The following table, compiled by Bradstreet's, gives the clearing house returns for the week ending June 7, 1894, and the percentage of increase or decrease as compared with the corresponding week last year:

Cities	Clearings	Inc.	Dec.
Kansas City	\$10,098,154	57	7
Omaha	8,374	107	4
Denver	9,115,894	48	4
St. Joseph	1,808,847	34	1
Lincoln	1,100,000	46	6
Wichita	320,411	34	8
Topeka	524,117	17	2

## TAYLORS IN THE OZARKS.

Murders of the Meeks Family Seen Near Forsythe.

SPRINGFIELD, Mo., June 9.—A timber cutting case before United States Commissioner Silsby, yesterday, brought out the information that the Taylor brothers, the murderers of the Meeks family, near Forsythe, were near Forsythe, Taney county, last week. District Attorney Walker found by close questioning a witness in the timber cutting case that the Taylors came there last week heavily armed, and were with relatives a few days. They had \$30,000 with them. They are cousins of George L. Taylor, who was arrested two years ago for leading in the assassination of George Williams, killed at Forsythe, and lynching of John Wright, a prisoner.

## TO PROTECT THE MINERS.

Governor Walte's Instructions to His Adjutant General.

DENVER, June 9.—Immediately on receiving information from Cripple Creek of the condition of affairs on Bull hill, Governor Walte telegraphed an order to Adjutant General Barney, instructing him to accept the surrender of the miners, not to disarm them, but to protect them with all the power at his command, to keep the deputy sheriffs out of their headquarters, to make no arrests, use no force, but let everything be done voluntarily. "If the armed deputies resist," the governor added, "I will call out the unorganized militia to suppress the insurrection."

## Kelly on the March.

CAIRO, Ill., June 9.—The shot gun quarantine which has been maintained by this city for the past two days against Kelly's industrial navy has resulted favorably to the city. Reduced to destitution and his men deserting him in large numbers, Kelly yesterday accepted a proposition from a committee of citizens to march at 3 p. m. He received two days' rations and transportation for his baggage to the county line. It is supposed the crowd will try to reach a point on the Ohio river near Paducah, Ky.

## Little Girl Burned to Death.

SENECA, Kan., June 9.—The 6-year-old daughter of George Firstenberger was horribly burned yesterday morning. It seems that she was playing with some other children in a child's playhouse and accidentally lighted a match, setting fire to some hay which they had spread around. Her clothes immediately caught fire, and before help could reach her she was burned so badly that she died soon after.

Emil Haberkorn, once husband of Actress Margaret Mather, died in Los Angeles from consumption. He was leader of orchestras in the East.

## MILITIA ON BULL HILL.

By Their Excellent Conduct Bloodshed Has Been Averted.

CRIPPLE CREEK, June 9.—The excellent conduct of the state troops, acting upon the polite orders of General Brooks, has greatly tempered the animosity that the deputies and strikers have felt toward each other, and the chances for a conflict are more remote than at any time since the two forces faced each other. The militia from its position between the two armies, has moved so as to prevent either side making an attack, and they have executed their orders in such a direct manner that they have won the regard of both sides. Several times the deputies began an advance, but were cut off by the troops.

The warlike attitude of the miners is so far changed that many of those for whom warrants have been issued have scattered in all directions and it is not likely that Sheriff Powers will find many of the men whom he wants. This is the situation at the point where General Brooks and troops are located. At other places the militia is ready to fire upon either strikers or deputies as ordered and the strikers and deputies are still eager for conflict. The strikers, who are in the minority, but an inadvertent move on the other side may precipitate a conflict.

The first body of militia arrived here at 5:30 p. m. and was enthusiastically received by the citizens. Generally they moved at Altman, on Bull hill, in conference with the strikers. He will accept their surrender, but will not disarm them. The militia has been ordered to Bull hill, which they will entirely surround so as to keep back the deputies. Many of the deputies have become disgusted and deserted. A few shots were to-day exchanged between strikers and deputies, but no one was injured.

## GAVE FALSE FIGURES.

A Testing Machine Used by the Carnegie Company So Manipulated.

WASHINGTON, June 9.—Lieutenant Albert Ackerman of the United States navy was heard yesterday by the house committee on armor plate frauds. He was one of the naval board which investigated the first charges of fraud. He told the investigation of the second or supplemental charges. This testimony developed a new branch of irregularity as to the manipulation of a testing machine used by the Carnegie company. The machine was operated so as to give false figures. Disclosure was also made as to serious defects in two plates of the Monterey, and one in the Machias. Lieutenant Ackerman said blow-holes were a positive defect and could be avoided. In this opinion his statement differed from that of other naval officers. The witness described the blow-hole in the thirteen-inch armor of the Monterey. A wire four feet long had been inserted in the hole.

Chairman Cummings read from the testimony of the second investigation to the effect that one of the workmen had been discharged at the suggestion of one of the government inspectors. Members of the committee commented on this testimony, stating that it indicated confidential relations between the Carnegie company and the naval inspectors.

## OKLAHOMA'S MONSTROSITY.

A Girl Baby Makes Its Advent in Jonesville With Two Heads.

SOUTH END, Ok., June 9.—Mrs. McMan, wife of a justice of the peace in the first addition north, called Jonesville, gave birth yesterday afternoon to a girl baby which had two heads. They were about equal size and were in an inverse order, that is, the faces were in opposite directions. The eyes, ears, nose and mouth of the head which faced backward were not perfect, as it could not breathe, see, hear, taste nor smell. The scalp, however, was perfect. Dr. Roison, the attending physician, cut off the head facing backwards and the baby is doing well. He thinks it may live.

## Horses Killed in a Race.

CHADRON, Neb., June 9.—Much indignation has been aroused here by the knowledge that four of the nine horses that were started in the 100-mile cowboy race are dead from the effects of the usage received. One dropped dead on the last mile. An effort was made by the managers to cover up this fact. Warrants have been issued for the arrest of several persons connected with the race.

**CAN BE RELIED UPON.**

When you start out on a Columbia, you come home on it.

The fact that it is impossible to ascertain the quality of a bicycle by a casual examination should be a sufficient reason for buying a wheel with a reputation.

There is no wheel that has been before the public so long, none that stands or ever stood so high, none so well guaranteed, none whose guarantee is so substantial and so liberally interpreted, none so safe to buy as a Columbia.

With Columbias listed at \$125, few riders will be so unwise as to invest in lower grade bicycles.

## THEY RAISED \$150.

Generous Response at the A. O. U. W Entertainment.

Col. Geo. W. Reed, who is always on hand at big lodge entertainments, made a speech at the A. O. U. W. entertainment, in which he told of the benefits of the order, and the purpose of the evening's entertainment.

The entertainment was rather of an informal nature and the proceeds went toward making up the deficit in the treasury of Capital lodge No. 3, A. O. U. W.

There was a very fine competitive drill, in which the D. of H. No. 61, composed of ladies, scored higher than the men of Capital No. 3.

Refreshments were served during the evening and music was furnished by the Mission orchestra.

Judge C. E. Foote, of Marion, made a short speech.

About \$150 was raised, which will go toward making up the deficit. A gold watch was raffled. Edward Gety secured it.

## Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
